President George Albert Smith
L.D.S. Church Offices Building
Salt Lake City, Utah

Dear President Smith,

Recently I found a copy of some writings of Emma Smith in which I was much interested, because they seemed to me to reveal the character of the woman in a fine way. Thinking that perhaps you, too, might enjoy reading them, I am enclosing copies for your files.

I should like to say also that I am one of many who is much heartened by the policy of our church in helping to feed the hungry in Europe. I hope that the plan is continued and enlarged and that we are asked to make genuine sacrifices in our efforts to help; it seems to me a real opportunity to put into practice the basic teachings of the Master.

May you be preserved in health to lead this people for many years to come. We need your wisdom and tolerance, but we need most of all your spirituality.

Very sincerely your sister,

Juanita Brooks
