## Ancestry Stories: Michael Mertens

Ancestry Stories introduces a new way to discover some of the interesting stories from your family's heritage.

Ancestry leverages cutting-edge technology to identify key ancestors from your past and the stories behind them.

This session will introduce Ancestry Stories and how you can discover and share stories with your families.

## Find A Grave: Your Ancestor's Resting Place -- Anne Mitchell

Learn the ins and outs of the Find A Grave Update including search strategies, and how to retrieve the information on the page easily. We will also look at how to easily upload photos and create a new memorial.

### Searching on Find A Grave

Basic searching on Find A Grave includes names, dates and cemeteries. There are also many advanced options to review so you find who you are looking for quickly.

### Understanding What Is on the Memorial Page

We review what you will find on the page, how to contact the owner of memorial and how to capture everything on the page so you can easily add it to your notes or your tree.

And once you are done with that memorial, you can easily search that cemetery for other known surnames.

### Adding a Memorial

You can add a memorial by first choosing the correct cemetery and then filling in the basics. We will review how to find a cemetery and how to fill in the information you need to get your memorial up on Find A Grave.
