

# Best Of The Best Tech Apps For Smashing Events RT1703

## The GeniBLISS Approach to Event Planning

### Phase 1: Getting Ahead...GB Style

Planning all the items that have to happen well in advance of the actual event

- Roadmap the event tasks and utilize tools to track progress while managing fun and innovated communication forums
- Build excitement for events by using our helpful plan to inform and set the tone for a successful event
- Don't forget those at a distance; use technology to get them involved throughout the planning process

### Phase 2: GB Style Execution

Everything that actually happens, occurs, or takes place during the event

- Continue that excitement at the event with those attending AND those who couldn't make it
- Keep your event running smoothly from check-in to adios
- Close the distance by sharing the event live-involving everyone regardless of location

### Phase 3: Keeping GB Style Connections

Don't forget about the all-important follow-up to the reunion

- immortalize the event by capturing the moments memories were created in a very Hollywood way
- Maintain connections and memories moving forward

## Hot Off The Press

Technology apps can be here one day and gone the next. Plus, how they work and what they offer by price point seems to change more frequently than passwords!

In order to give you the most up to date information, we've elected to hold off publishing this syllabus until the week of the RootsTech 2019 conference.

Visit the website below to download a complete syllabus.

**Detailed Syllabus Available February 25, 2019 @**  
**<https://genibliss.com/rootstech2019>**

Come Join Us at RootsTech 2019  
Saturday March 2 @ 1:30 pm. Room 251 D

*Let's Make Some Memories!*

Explore with us the apps to to  
jazz up and capture your event  
in legendary ways!
